

Subject Index to Volume 179 (Jan.-June 1974)

A

- Abdomen, surgical judgment in the management of penetrating wounds of the, 639
Abdominoperineal resection for carcinoma, 842
Adenomas, parathyroid, application of thyroid lymphography to preoperative localization of hyperfunctioning, 378
Adrenalectomy, bilateral, current status of, for advanced prostatic carcinoma, 17
Allografts, hepatic, in unmodified mongrel dogs, the influence of DL-A compatibility on the survival of, 846
Anastomotic ulceration, 339
Anemia, the effect of, on wound healing, 163
Aneurysm, aortic, one-stage operative therapy for *Salmonella* mycotic abdominal, 8
thoraco-abdominal aortic, and abdominal, involving renal, superior mesenteric and celiac arteries, 763
Aorta, abdominal, plasma renin activity in patients undergoing surgery of the, 65
Appendicitis, ruptured in femoral hernias, 24
Arterial reconstruction, a technique for combined aorta-femoral-popliteal, 572
Arteries, thoraco-abdominal aortic aneurysms and abdominal aneurysms involving renal, superior mesenteric and celiac, 763
Artery bypass, axillary-contralateral brachial, for arm ischemia, 827
coronary, by-pass surgery and renal transplantation, 63
Atresia, intestinal, small, considerations in operative management, 663
Atrial septal defect, adult: results of surgical repair, 799
Autografts, lung, long term functions, 136

B

- BCNU, see 1,3Bis-(2 Chlorethyl)-1 Nitrosourea, 450
1,3Bis-(2 Chlorethyl)-1-nitrosourea, chemotherapy in pancreatic carcinoma, 450
Bladder dysfunction and its manifestations following abdominoperineal extirpation of the rectum, 179
Blood, mesenteric, experimental study of hyperdynamic vs. stagnant, flow in portal hypertension, 304
stored, mechanism of microaggregate function, 146
Bromide-82, simultaneous distribution rate and dilution volume of, and thiocyanate in body fluid overload, 200

- Bypass, aortic femoral, ureteral obstruction secondary to, 192
artery, axillary-contralateral brachial, for arm ischemia, 837
cardiopulmonary in pigs, effect of platelet inhibition on platelet phenomena in, 52
compartive effects of left atrial or left ventricular, on coronary sinus flow and oxygen usage in dogs, 830
jeunoileal, for massive obesity, 460
left ventricular, in the unanesthetized dog: a study employing transthoracic cannulation and a paracorporeal roller pump, 39

C

- Calculi, retained, within the biliary ductal system, 528
Cancer, liver, hepatic cellular responses to: abnormalities in metabolism of mitochondria isolated from human liver involved with carcinoma, 79
lung, the detection and treatment of early, 813
Candida albicans, bacteriology of the stomach immediately following vagotomy, the growth of, 859
Candida endocarditis complicating glucose total intravenous nutrition, 902
Cannulation, transthoracic, twenty-four hour left ventricular bypass in the unanesthetized dog: a study employing, and a paracorporeal roller pump, 39
Carcinoma, abdominoperineal resection for, 842
anaplastic, of the thyroid, 295
colorectal, bacterial endocarditis associated with, 190
hepatic cellular responses to liver cancer: abnormalities in metabolism of mitochondria isolated from human liver involved with, 79
mammography, an aid in the treatment of, 749
of the breast, extended extrapleural radical mastectomy, its role in the treatment of, 260
pancreatic, chemotherapy in, 450
prostatic, current status of bilateral adrenalectomy for advanced, 17
thyroid, 734
Casualties, mass, in a maximum security institution, 592
Catheter, central venous, total intravenous feeding of infants and children without the use of, 445
CVP, air embolus via, without positive pressure, 479
Catheterization, a new complication of subclavian vein, 266

- Chemotherapy, potentiation of solid-tumor, by metabolic alteration, 88
- Choleresis, insulin, in dogs, effect of cholinergic blockade, 505
- Cholestyramine, prevention of bile reflux induced acute gastric ulceration in the rat by, 883
- Chyme, intraluminal, the roles of, and vasomotor response in the pathogenesis of nonocclusive intestinal infarcts, 877
- Cirrhosis, hepatic, portal-systemic shunt in, does the type of shunt decisively influence the clinical result, 209
- Colitis, ulcerative, surgical management of toxic megacolon in, 647
- Colon, proximal, polypoid lesions of the, 657
- Colonoscope, effects of the fiberoptic laparoscope and, on morbidity and cost, 160
- Condylomata acuminata, the variable significance of, 328
- Contractile activity, gastric and duodenal, the effect of parietal cell and truncal vagotomy on, of the anesthetized dog, 853

D

- Debridement, carbon dioxide laser, of decubitus ulcers followed by immediate rotation flap or skin graft closure, 230
- use of a carbon dioxide laser for, of the third degree burns, 246
- Decompression, portal-systemic, the meso-spleno-renal shunt procedures, a complete approach to, 791
- Disease, cystic, of the liver, 922
- DL-A compatibility, the influence of, on the survival of hepatic allografts in unmodified mongrel dogs, 846
- Duct, common bile, complete transection of the, due to blunt trauma, 440

E

- Elastase, plasma level of, in bile-induced pancreatitis in the dog, 58
- Emboli, pulmonary, comparison of surgical management for, 836
- Embolus, air, via CVP catheter without positive pressure, 479
- Endocarditis, bacterial, associated with colorectal carcinoma, 190
- Candida, complicating glucose total intravenous nutrition, 902
- Endotoxin, further studies of, and alveolocapillary permeability, effect of steroid pre-treatment and complement depletion, 372
- Endotracheal damage during continuous ventilatory support, 123
- Esophagogastrostomy, posterior invagination, a procedure for, in one-stage without positional change, 27

- Esophagoplasty for corrosive structure of the esophagus, 510
- Esophagus, esophagoplasty for corrosive strictures of the, 510
- management of transmural peptic strictures of the, 382
- Ethanol, gastrin release by, in man and in dogs, 906

F

- Filtration, dacron wool, and hypotensive shock, 427
- Finger(s), replantation of severed, 255
- 5-fluorouracil, chemotherapy in pancreatic carcinoma, 450
- 5 FU, see 5-fluorouracil

G

- Gastrectomy, long term results of, with respect to blood lipids, blood pressure, weight and living habits, 896
- Gastric acid secretion in patients with a symptomatic gastroesophageal reflux and patients with esophageal strictures, 119
- in the rat, intestinal control of, 376
- Gastric surgery, reflux gastritis following, 618
- Gastrin release by ethanol in man and in dogs, 906
- Gastritis, reflux, following gastric surgery, 618
- Glucose, insulin response in patients receiving concentrated infusions of, and casein hydrolysate for complete parenteral nutrition, 387
- Glucose tolerance and insulin response during and after elective skeletal surgery, 926

H

- Heart, artificial, long term effects of, 362
- Hemangiopericytoma, 128
- Hematoma, duodenal, non-operative management of intramural, 549
- Hemobilia, traumatic, 311
- Hemodialysis, influence of duration of, on early post-transplant function of machine preserved human cadaveric kidneys, 499
- maintenance, general surgery in patients on, 863
- Hemorrhage, adrenal, during anticoagulant therapy, 70
- spontaneous intraspinal, causing paraplegia, a complication of heparin therapy, 197
- upper gastrointestinal, the management of, a multi-parametric computer analysis, 489
- Heparin therapy, spontaneous intraspinal hemorrhage causing paraplegia, a complication of, 197
- Hepatic surgery, elective, 712
- Hepatoma, spontaneous rupture of, a misdiagnosed surgical emergency, 133
- Hernia(s) femoral, ruptured appendicitis in, 24
- inguinal, studies on the biology and treatment of recurrent, morphological changes, 567

- Hirschsprung's disease, evaluation of a modified Duhamel operation for correction of, 671
- Hypermetabolism, burn, researches on the cause of, 291
- Hyperparathyroidism, results of surgery for, 729
- Hypertension and renin in human renal transplantation, 580
- hepatic, experiences with surgical reconstruction of the, 540
- portal, experimental study of hyperdynamic vs. stagnant mesenteric blood flow in, 304
- use of hemodynamic selection criteria in the management of cirrhotic patients with, 782
- Hypoperfusion, pancreatic, and the production of a myocardial depressant factor in hemorrhagic shock, 868
- Hypoxemia after upper abdominal surgery, comparison of venous admixture and ventilation/perfusion inequality components, using a digital computer, 149

I

- Ileal reservoir, ileostomy with, rather than ileostomy alone, 634
- Ileostomy with ileal reservoir rather than ileostomy alone, 634
- Ileus, adynamic, hemodynamic observations of, in the conscious dog, 332
- Immunocompetence, the effect of dietary protein depletion on, the importance of nutritional repletion prior to immunologic induction, 168
- Incisions, skin, the ritual and practice of, 102
- Infarctectomy, myocardial, changes in left ventricular function following, 434
- Infarcts, intestinal, the roles of intraluminal chyme and vasomotor response in the pathogenesis of non-occlusive, 877
- Infection in the severely traumatized patient, 352
- Infusion, insulin, in the dog, effect of partial and total vagotomy on the gastric acid response to, 12
- Insulin choleresis in dogs, effect of cholinergic blockade on, 505
- in patients receiving concentrated infusions of glucose and casein hydrolysate for complete parenteral nutrition, 387
- response, glucose tolerance and, during and after elective skeletal surgery, 926
- secretion after pancreateoduodenectomy, 494
- Intestine, fetal, transplantation of, survival and function in a subcutaneous location in adult animals, 109
- Intravenous feeding, new techniques for long term, an artificial gut in 75 patients, 519
- total, of infants and children without the use of a central venous catheter, 445

- Ischemia, arm, axillary-contralateral brachial artery bypass for, 827

K

- Kidney(s), human cadaveric, influence of duration of hemodialysis on early post-transplant function of machine preserved, 499

L

- Laparoscope, fiberoptic, effects of, and colonoscope on morbidity and cost, 160

- Laser, carbon dioxide, debridement of decubitus ulcers, 230

for the debridement of third degree burns, 246

- Lesions, polypoid, of the proximal colon, 657

pulmonary artery, after banding, influence of different materials, 805

- Ligation, transthoracic, of bleeding esophageal varices in patients with intrahepatic portal obstruction, 35

- Liver, canine, forty-eight-hour preservation of the, 422
- cystic disease of the, 922

- Liver trauma, management of, in 811 consecutive patients, 722

- Lymph node, effectiveness of axillary, dissection in modified radical mastectomy with preservation of pectoral muscles, 269

results of regional dissection for melanoma, 105

- Lymphocyte tissue culture studies on human heart transplant recipients I. screening recipients for serum factors which inhibit the mixed lymphocyte reaction, 930

- Lymphotherapy, effect of, on the course of experimental *Pseudomonas* sepsis, 482

- Lymphography, application of thyroid, to preoperative localization of hyperfunctioning parathyroid adenomas, 378

M

- Malignancies, gastric, surgical treatment of, 94

- Mammography, an aid in the treatment of carcinoma of the breast, 749

- Mastectomy, radical, effectiveness of axillary lymph node dissection in modified, with preservation of pectoral muscles, 269

the extended extrapleural, its role in the treatment of carcinoma of the breast, 260

- Megacolon, toxic, surgical management, in ulcerative colitis, 647

- Melanoma, of the lower extremity, the role of groin dissection in the management of, 156

results of regional lymph node dissection for, 105

- Metabolism, energy, in sepsis, treatment based on different patterns in shock and high output states, 684

- wound, effect of changes in inspired oxygen tension on, 889
 Microaggregate formation in stored blood, mechanism of, 146

N

- Necrosis, colonic, complicating postoperative pancreatitis, 403

Neomycin toxicity from porcine skin xenografts, 183

Neuroblastoma, pelvic: a better diagnosis, 115

Nutrition, parenteral, in the burned child, 219

O

- Occlusion, acute mesenteric vascular, combined surgical and nutritional management of patients with, 358

P

Pancreas, islet concentration in the head, body, tail and uncinate process of the, 412

management of the, after pancreaticoduodenectomy, 322

Pancreatitis, acute, respiratory complications in, the influence of treatment with albumin and diuretics, 557
 bile induced, in the dog, plasma levels of elastase, trypsin and their inhibitors in, 58
 postoperative, colonic necrosis complicating, 403

Pancreaticoduodenectomy, insulin secretion after, 494
 management of the pancreas after, 322

Pentagastrin stimulated pepsin secretion in man and dogs, 300

Pepsin secretion in man and dogs, pentagastrin stimulated, 300

Perforation, esophageal, improved management of, 587

Perfusion, hypothermic pulsatile, two-to-three day intestinal preservation utilizing, 454
 renal cortical, the control of, by the renin angiotensin system, 238

Pheochromocytoma, current management of, 740

Phosphatase, acid, steroid effect on the release of the lysosomal enzyme, 917

Plasma renin activity in patients undergoing surgery of the abdominal aorta, 65

Portal obstruction, intrahepatic, transthoracic ligation of bleeding esophageal varices in patients with, 35

Pseudocyst, neonatal adrenal, mimicking metastatic disease, 186

pancreatic, of the spleen, 73

Pulmonary function after exchange transfusion of stored blood in dogs, 46

R

Rectum, bladder dysfunction and its manifestations following abdominoperineal extirpation of the, 179

Renal transplantation, hypertension and renin in human, 580

Renin, hypertension and, in human renal transplantation, 580

Respiratory complications in acute pancreatitis, the influence of treatment with albumin and diuretics, 557

S

Secretion, gastric, effect of an elemental diet on, 226

Sengstaken-Blakemore tube, the use of, for immediate control of bleeding esophageal varices, 273

Sepsis, Candida, pathogenesis and principles of treatment, 697

effect of lymphocytotherapy on the course of experimental pseudomonas, 482

energy metabolism in, treatment based on different patterns in shock and high output state, 684

Serum factors, screening recipients for, which inhibit the mixed lymphocyte reaction, 930

Shock, hemorrhagic in the baboon, the relationship of circulating endogenous endotoxin to, 910

hypotensive, dacron wool filtration and, 427

pancreatic hypoperfusion and the production of a myocardial depressant factor in, 868

pulmonary function in, the effect of ligation and blood filtration, 395

pulmonary gas exchange following, and massive blood transfusion in the baboon, 316

steroid effect on the release of the lysosomal enzyme acid phosphatase in, 917

Shunt, the meso-spleno-renal, procedures, a complete approach to portal systemic decompression, 791

portal-systemic, in hepatic cirrhosis, 209

Sinus, coronary, comparative effect of left atrial or left ventricular bypass on, flow and oxygen usage in dogs, 830

Snake bite, the use of excisional therapy in the management of, 598

Spleen, occult rupture of the, the chronic form of splenic rupture, 472

pancreatic pseudocyst of the, 73

regulation of, growth in hepatic dysfunction, 465

Splenoportography, an assessment of value and risk, 773

Stenosis, tracheal, surgical management of, 819

Steroid therapy, the effect of short term, on lung bacterial clearance and survival in rats, 415

Stricture, corrosive, of the esophagus, esophagoplasty for, 510

esophageal, gastric acid secretion in patients with a symptomatic gastroesophageal reflux and patients with, 119

peptic, management of transmural, of the esophagus, 382

Surgery, esophageal, a procedure for posterior invagination esophagogastronomy in one-stage without positional change, 27
 skeletal, glucose tolerance and insulin response during and after elective, 926

T

Transfusion, massive blood, in the baboon, pulmonary gas exchange following hemorrhagic shock and, 316
 Teratomas, sacrococcygeal, management of, with particular reference to the adult, 676
 Thiocyanate, simultaneous distribution rate and dilution volume of Bromide-82 and, in body fluid overload, 200
 Thrombosis, venous, the epidemiology of lower extremity deep, in surgical patients, 278
 Thyroid, anaplastic carcinoma of the, 295
 carcinoma, 734
 Transfusion, exchange, pulmonary function after, of stored blood in dogs, 46
 Transplantation, renal, coronary artery by-pass surgery and, 63
 Trauma, complete transection of the common bile duct due to blunt, 440
 liver, management of, 722
 surgical, alterations in ventilatory functions and breathing patterns following, 1
 Trypsin, plasma levels of elastase, and their inhibitors in bile induced pancreatitis in the dog, 58

U

Ulcers, decubitus, carbon dioxide laser debridement of, 230
 duodenal, selective vagotomy plus suprapyloric antrectomy with and without pylorotomy for, 516

peptic, surgical management of perforated, 628
 Ulceration, acute gastric, prevention of bile reflux induced, in the rat by cholestyramine, 883

V

Vagotomy, bacteriology of the stomach immediately following, the growth of *Candida albicans*, 859
 effect of partial and total, on the gastric acid response to an insulin infusion in the dog, 12
 effect of, on biliary secretions and bile salt pools in dogs, 406
 parietal cell, meat extract-stimulated gastric secretion before and after, without antrum drainage, 174
 proximal gastric (highly selective), an experimental study, 608
 selective gastric, with drainage in patients with duodenal ulcer, 174
 selective, plus suprapyloric antrectomy with and without pylorotomy for duodenal ulcer, 516
 truncal, effect of parietal cell and, on gastric and duodenal contractile activity of the unanesthetized dog, 853
 Varices, bleeding esophageal, transthoracic ligation of, in patients with intrahepatic portal obstruction, 35
 use of the Sengstaken-Blakemore tube for immediate control of, 273
 Vessels, penetrating wounds of the great, 757

W

Wounds, penetrating, of the abdomen, surgical judgement in the management of, 639
 of the great vessels, 757

X

Xenografts, porcine skin, neomycin toxicity from, 183

Second-class postage paid at Philadelphia, Pa., and at additional mailing offices

Chances are 50/50 the next person to die of a heart attack will die before he ever reaches the hospital...

unless you get into the ACT*

You could be instrumental
in bringing Mobile Coronary
Care to your community.

We can help you.

We have the facts,
figures, and a blueprint
for action.

Write us...

*ACT FOUNDATION

(Advanced Coronary Treatment)

350 Grove Street
Somerville, New Jersey 08876

The ACT Foundation
—sponsored as a public service by twelve leading
pharmaceutical companies.

ACT Foundation
350 Grove Street
Somerville, New Jersey 08876

Please send me information
on how I can help establish a
Mobile Coronary Care
System in my community.

Healing nicely, but it still **HURTS**

HERE

Burns

When parenteral analgesia is no longer required, Empirin Compound with Codeine usually provides the relief needed.

HERE

Sutures

Empirin Compound with Codeine is effective for visceral as well as soft tissue pain—provides an antitussive bonus in addition to its prompt, predictable analgesia.

(III) prescribing convenience: up to 5 refills in 6 months, at your discretion (unless restricted by state law); by telephone order in many states.

Empirin Compound with **Codeine No. 3**, codeine phosphate* 32.4 mg. (gr. $\frac{1}{2}$); **No. 4**, codeine phosphate* 64.8 mg. (gr. 1). *Warning—may be habit-forming. Each tablet also contains: aspirin gr. $3\frac{1}{2}$, phenacetin gr. $2\frac{1}{2}$, caffeine gr. $\frac{1}{2}$.

HERE

Nasal fracture

EMPIRIN® COMPOUND c CODEINE

#3, codeine phosphate* (32.4 mg.) gr. $\frac{1}{2}$
#4, codeine phosphate* (64.8 mg.) gr. 1
